

VALMET AUTOMOTIVE

QUALITY POLICY

Valmet Automotive's goal is to be a first class supplier and consistently provide products and services that meet the requirements and expectations of our customers.

- We aim to deliver the best quality throughout our complete product range
- We implement systems and processes that help our employees to do their job right at the first time and prevent failures
- We fully adhere to legal regulations and are strongly committed to our customers' needs and requirements
- We continuously monitor our quality and process performance, immediately react in case we see deviations and improve the level of excellence constantly
- We also expect the highest level of quality from our suppliers in order to ensure total quality in the supply chain
