

VALMET AUTOMOTIVE

HEALTH & SAFETY POLICY

Keeping our employees and visitors safe is one of our key principles. Valmet Automotive has enforced strict safety and health standards in all our operations, highly supported by our management and all employees.

- We continuously evaluate our processes, technologies and new products in order to anticipate and eliminate risks before they occur
- We continuously evaluate the well-being of our personnel and implement health improvement measures
- We follow the safety regulations and instructions and systematically train them to improve the safety awareness of all levels of the organization.
- We encourage our employees to report the safety findings and health and safety feedbacks
- We invest in health and safety to increase the well-being of our personnel and to assure high process capability

Pasi Rannus, CEO Valmet Automotive
