

VALMET AUTOMOTIVE

SUSTAINABILITY POLICY

Our Sustainability Policy aims to integrate sustainable development into all Valmet Automotive activities to shift towards a zero-emission society. We carry a responsibility to act sustainably and consider environmental, social, governance and economical aspects. This Policy focuses on environmental values as we have separate Social and Governance Policies.

- We comply with applicable laws and regulations relevant to our operations
- We ensure sustainable economic growth and create value for our stakeholders
- We demand our suppliers to comply with our Supplier Code of Conduct, and we commit to reducing our value chain emissions aligned with science-based targets
- We promote the responsible use of natural resources and circular economy
- We strive to build sustainability awareness and responsibility among our internal and external stakeholders – educating and motivating them to act in a sustainable manner
- We improve our measures and processes to effectively manage our significant environmental impacts
- We apply the best practices to utilize the synergies between our businesses
